

Esteban Daniel Mancilla Lozoya

+52 314 100 8320 | emancillalozoya@gmail.com | [Portfolio](#) | [GitHub](#)

Software Engineer specializing in Backend and Database design. I have experience leading the technical development of academic projects and solutions for real organizations, including the Mexican Navy. I seek to optimize processes, ensure data integrity, and guarantee quality.

EDUCATION

- Software Engineer** | University of Colima

2022 - 2026

PROFESSIONAL EXPERIENCE

Domind Main Platform – Climate Diagnosis

Colima, Colima

Backend Architect & Full Stack Developer

february 2026 - april 2026

- Leading the end-to-end development of a SaaS platform for organizational climate and industrial safety diagnostics.
- Designing the backend architecture with NestJS and PostgreSQL, while developing the frontend, role-based access control, assessment engine, analytics dashboard, and PDF report generation.

Augmented Reality Mobile Game

Manzanillo, Colima

Full Stack Developer & 3D Artist

september 2025 - november 2025

- Developed a mobile video game using C# and Unity, integrating 3D models and custom animations created in Blender.
- Implemented a secure authentication system using the Google API and Firebase, managing the storage of high scores and user sessions in the cloud.

Backend for iOS Mobile Application

Manzanillo, Colima

Backend Co-Lead

may 2025 - september 2025

- Architected the backend using NestJS (TypeScript) and MongoDB, developing a real-time chat module via WebSockets and Gateways, enabling instantaneous two-way communication between users.
- Integrated AWS services, implementing S3 for secure file storage and SES for transactional email automation.

Naval Inventory System - Mexican Navy (Manzanillo Headquarters)

Manzanillo, Colima

Backend Lead & Full Stack Collaborator

august 2024 – may 2025

- Co-developed a web application with Node.js and React for the management of military supplies, achieving a 34% reduction in registration times compared to the manual process.
- Implemented security and functionality testing to guarantee operational stability in a critical environment.

TECHNICAL SKILLS

- Languages:** TypeScript, JavaScript, SQL.
- Frameworks & Runtime:** Node.js, NestJS, React.js, Astro.
- Databases & Cloud:** MongoDB, MySQL, AWS (S3, SES), Firebase.
- Tools:** Claude AI, ChatGPT, Blender
- Languages:** English (B2).
